SECOND REQUEST FOR CORRECTED FILING RECEIPT

Sir:

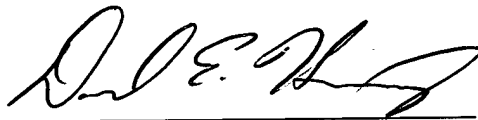

Applicants respectfully request that the Patent Office provide a Corrected Filing Receipt in order to correct an error on the Official Filing Receipt that was made by the Patent Office. Enclosed is a copy of the original Filing Receipt with a change made in red ink to correct the error.

-2-

The original Filing Receipt inadvertently indicates that the above-identified application was filed on November 8, 2001. However, the actual filing date is November 9, 2001 as evidenced by (i) a copy of the Application Transmittal Letter which includes a Certificate of Express Mailing under 37 CFR 1.10 indicating that the application was filed on November 9, 2001, (ii) the Express Mail Receipt No. EF384080919US, which was stamped by the U.S. Post Office with the actual filing date when the application was filed, (iii) a copy of the signed Declaration showing that the Declaration was signed on November 9, 2001 by all of the Inventors, and (iv) the returned postcards which show a mailing date of November 9, 2001, copies of which are enclosed. Applicants believe that the U.S. Post Office Representative inadvertently wrote the wrong date, (i.e., November 8, 2001) on the Express Mail Label when the Application was filed.

For the reasons stated above, the Patent Office should provide a Corrected Filing Receipt. Since the above-listed error was made by the Patent Office, there should not be any fee required for this correction.

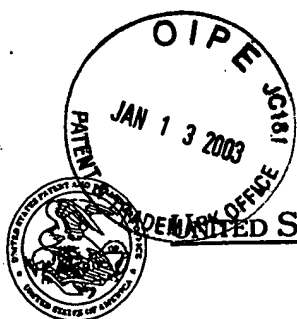

Respectfully submitted,

Title

Techniques for making non-halogenated flame retardant cross-linked polyolefin material which is suitable for use in a cable

Preliminary Class

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
